

## Contract/ Health Guarantee

**The puppy must be examined by a licensed veterinarian within 3 business days of receiving your puppy for this guarantee to be effective. Your puppy will come with up-to-date, age-appropriate vaccinations.**

We the Seller do our best to breed and produce physically and temperamentally sound Miniature Schnauzers of the overall correct type required by the breed standard. All puppies come with dewclaws removed and tails docked and age-appropriate vaccinations and dewormings. Puppies will be sold with natural ears. Seller assumes no cost for Veterinary care or medical treatment once the puppy leaves our premises. Buyer is responsible for taking puppy to his/her Veterinarian within 3 business days of receiving the puppy. We guarantee our puppies from life-threatening hereditary defects for a period of one year. Buyer must provide written proof from two qualified Veterinarians if a problem is found that poses an imminent threat to the puppy's life. To qualify for reimbursement or replacement of the puppy, at least one Veterinarian has to be selected by the Seller. Hereditary defects do not include communicable diseases that could be prevented by vaccinations (parvo., distemper, etc...). Failure to provide your puppy with timely vaccinations or regular veterinary care will void this guarantee. If puppy should die within the one year, Buyer agrees to pay to have a necropsy performed and any testing of tissues needed to determine cause of death. We also are not responsible for any kind of worm, Coccidiosis, or giardia. These parasites are all too common to puppies. The puppy has been dewormed frequently from two weeks of age until buyer takes possession. It is your responsibility to continue to deworm the puppy as the vet recommendations. Seller strongly recommends keeping puppy away from public places till it has had its full sets of vaccinations. No refund or replacement will be made on a puppy due to illness from neglect, exposure to weather, injury, choking, poisoning, etc. If there is sufficient evidence the puppy is being mistreated or neglected, the Seller has the right to reclaim the dog and buyer will not be compensated in any way for the dog.

Occasionally, a puppy will be born with an umbilical hernia that will most likely close up on its own. Some dogs live their whole lives with small ones that do not need repaired, if it has not closed up on its own by 12 months of age and repair is deemed necessary at this time, Seller will reimburse Buyer part of the cost of the surgery to repair the hernia up to \$50. Buyer must have in writing from licensed Veterinarian that surgery is medically necessary. Reimbursement of \$50 toward surgery also applies for inguinal hernias. This guarantee does not cover any costs of spaying or neutering, including undescended testes.

**This contract is valid only for the original Buyer of the puppy and is not transferable to another person. As stated above, we do guarantee our puppies from life-threatening health defects for 1 year from birth.**
